ABOUT ME

Information Technology graduate with hands-on experience in frontend and full-stack web development through academic, internship, and personal projects. Proficient in React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, Python, and MySQL. Passionate about building responsive, user-friendly web applications and continuously learning modern technologies and AI-assisted development tools.

EDUCATION

Holy Cross of Davao College | 2022-2026

Bachelor of Science in Information Technology

Relevant Coursework: Software Development, Database Management, Systems Analysis & Design, Networking, Web Technologies

INTERNSHIP

SPLACE BPO | 2026

- Assisted in computer troubleshooting and hardware maintenance.
- Installed and configured operating systems.
- Performed computer reformatting and software installation.
- Assisted with basic networking and technical support.
- Monitored and maintained computer systems.

PROJECTS

RiceSure (Award-Winning Research Project)

React Native (Expo) • Flask • TensorFlow • Python

- Developed an AI-powered mobile application for rice grain purity detection using image-based classification with a Convolutional Neural Network (CNN).
- Built and integrated RESTful APIs connecting the React Native application with the Flask backend.
- Implemented image upload functionality and managed prediction results through seamless frontend-backend communication.
- Contributed to integrating a CNN-based machine learning model for accurate rice grain purity detection.
- Designed a responsive and user-friendly mobile application interface.

Received the following recognitions for the project:

- 2nd Runner-Up, SDG 2 – Zero Hunger Category, TechnoFair 2026, Holy Cross of Davao College.
- 2nd Best Research Paper, Center for Research and Development Conversazione 2026.
- Presented at the 11th International Conference on Multimedia and Image Processing (ICMIP 2026), Sapporo, Japan.

PZAM Cups Online Ordering System

React.js • Node.js • Express.js • MySQL • PayMongo

- Developed a full-stack e-commerce web application for online cup ordering using React.js, Node.js, Express.js, and MySQL. Developed authentication and user management features.
- Built a responsive and user-friendly interface with React.js and Vite, optimized for desktop and mobile devices.
- Implemented user authentication, shopping cart, and order management functionality.
- Integrated RESTful APIs for seamless communication between the frontend and backend.
- Integrated PayMongo to support secure online payments through GCash and other supported payment methods.
- Improved the overall user experience by optimizing navigation, responsiveness, and checkout workflows.

SKILLS

Frontend: • HTML5 • CSS3 • JavaScript (ES6+) • TypeScript • React.js • Next.js • React Native • Tailwind CSS • Bootstrap

Backend: • Node.js • Express.js • Python • Laravel

Database: • MySQL • Supabase • Firebase

AI Tools: • Claude • ChatGPT • GitHub Copilot

Tools & Platforms: • Git • GitHub • Postman • Vercel • VS Code
